Re: IS Database Engineer Students

Dear HR Manager,

My name is Ayumu Okumura, and I am writing to express my interest in the Database internship position at Canadian Natural Resources Limited. As a committed IT student with over six years of experience at a fast-food restaurant, I bring an eagerness to learn new technology, a strong work ethic, and excellent communication skills developed through years of working in the customer service industry.

In my previous position at fast food restaurants, I learned to manage responsibilities, support team members, and maintain quality and accuracy in fast-paced operations. These experiences improved my adaptability, carefulness, and collaboration skills, which are relevant to IT fields such as troubleshooting, analyzing, and participating in team projects. Additionally, my academic course has given me a strong foundation in SQL and database management, which I have further expanded through practical work.

I am drawn to Canadian Natural Resources Limited because of its mission. This internship represents the opportunity for me to learn from experienced professionals, apply my strong work ethic, and grow into a reliable professional.

Thank you for taking the time to consider my application. I look forward to the opportunity to discuss how my skills and eagerness can bring success to your team. I am available at a time that suits you at the number or email aforementioned.

Sincerely,

Ayumu
